

“I’d tell ‘em  
to use Katana,  
just for the  
reliability, safety,  
quick and easy,  
and certification  
upon completion”

Aaron Freedman,  
Certified Installer

# GROW YOUR BUSINESS

Katana Foundations is looking to partner with select civil contractors and concreters who want to expand their businesses by installing 100% Australian made screw piles.

Engineers and Builders are specifying Katana screw piles because they want a cost effective foundation that's constructed on time and certified to Engineering specifications.

## 2. Technical support

Installation training and certification

In-house Engineers to help you solve problems

Easy to use installation methods and guidelines

## 4. 100% Australian made

400+ Grade high-tensile steel from Bluescope Steel

Steel piles manufactured in Australia

100% Australian owned and operated

# 5 REASONS TO BECOME A CERTIFIED KATANA FOUNDATIONS INSTALLER

## 1. Fast and easy installation

No spoil to remove

Twin-fin blade slices through underlying strata, just like a Katana – the Japanese samurai sword

Save time with easy to attach extensions for challenging soil conditions

## 3. Mobile installation reporting technology and certification

Enter job information and images on site using Kiban (Japanese for 'Foundation' pronounced kee-bahn) - our proprietary mobile installation reporting application

Paperless system captures all the information required to validate and certify the installation, including Structural Engineering drawings and Geotechnical report

CodeMark certified to comply with the Building Code of Australia

## 5. Versatile drive head connection

Patented threaded square pile head eliminates on-site hot works

Allows multiple attachments for locking in concrete footings

Supports slab on ground and raised floors

“

Installing for the Katana team has proven to present our company with growth opportunities we would never have imagined. Not only is their product of the highest quality, but Katana's systems and processes are very detailed and thorough, and they are extremely supportive and easy to work with.

The Katana family's operating principles and values in terms of honesty, reliability, support and professionalism is not only delivering the finished product, but also fostering relationships with their installation partners. We are extremely proud to be a part of Katana Foundations and highly recommend joining the team. ”

Jesse Allen - Allen's Earthmoving & Excavations

## GROUNDING IN SCIENCE

We founded Katana Foundations in 2012 to provide the building industry with a technically superior screw pile supported by a passionate team you can rely on to do the right thing.

After 26,000 jobs and 1.5 million screw pile installations, we have established a reputation as Australia's most reliable screw pile supplier for our transparency, performance, and technical expertise.
